Bachelor of Science in Psychology

ONLINE
Starting or completing your Bachelor of Science degree in Psychology online opens doors to many career opportunities.

Program Insight

“Students enrolled in my online classes have jobs, children, parents—so many demands on their time! But their dedication to their education is always an inspiration to me. Because of their commitment, I am dedicated to them as Advisor of the new BS in Psychology program online.”

Dr. Deborah Eakin
Online Psychology Advisor

How Does it Work?

Complete your freshman and/or sophomore year requirements through MSU online, at an accredited community college, or at any other accredited four-year institution. Students may transfer up to 62 hours of community college course work to MSU.

Every class you will need is available ONLINE! Students may begin taking courses at the start of any semester. Courses are not sequenced except for one or two exceptions.

What’s Next?

Take the classes from the following categories to complete the major:

- 27 hours of Required Psychology Courses
- 18 hours of Elective Psychology Courses
- Enough General Elective Courses to make 124 hours to graduate
